Opportunity In Adversity

Thursday | 23 | May
3pm Onwards | 2024

Venue: Hyatt Place, Tahachal, Kathmandu

This is to certify that

**ROUND TABLE
NEPAL**

has made an excellent effort and distinguished contribution
towards the Aims & Objectives of Round Table International, tirelessly working to
ADOPT. ADAPT. IMPROVE.

This makes the Association an inspiration for all members of Round Table ASPA Region.

During ASPA MEETING 2024 for this special achievement, it is awarded the title of

ASSOCIATION OF THE YEAR

ASPA 2023 - 2024

The ASPA regional meeting was held in the Philippines this year, marking a remarkable and impressive period for RTN. This year has been exceptional for RTN, as we have excelled and received multiple prestigious awards.

ASPA Awards:

1. Association of the Year
2. Service Project of the Year – Model School
3. ASPA Star – Tr. Rohit Agarwal

These accolades are a testament to the hard work, dedication, and collaboration of everyone involved. Such accomplishments would not have been possible without the collective effort and support of each member. This success proves that when we unite and focus our efforts, we are truly unbeatable.

Serenity

The primary aim of Round Table is to foster camaraderie among its members. This year, for the first time, Round Table Nepal introduces Annual Retreat, a two-day retreat designed to provide a refreshing break from daily life. This event offers an opportunity to enjoy quality time with fellow tablers, encapsulating pure moments of fun and rejuvenation, reminding us that a key purpose of life is to enjoy it.

The concept of “Serenity” was thoughtfully integrated into the event, which took place in Pokhara from May 10-12, 2024, at the Temple Tree. This gathering not only signifies a new chapter in fostering fellowship but also serves as a platform to strengthen bonds and bring tablers closer together.

Model School

The Round Table Nepal National President, Tr. Nitesh Kumar Agarwal, envisioned that while we are constructing schools, classrooms, toilets, labs, and libraries, it is now essential to integrate these elements to create well-rounded educational environments that cater to all aspects of a child's education.

With this goal, RTN has successfully completed four model schools.

This initiative has gained international recognition and was honored with the SERVICE PROJECT OF THE YEAR at ASPA.

Round Table Nepal proudly inaugurated another milestone Shree Vishwa Hindu Sanskriti Viddhyapith Adharbhut Vidhyalaya, Birgunj as Model School.

The 5th model school built in Birgunj by RTN this year to serves as a beacon of excellence in education, inspiring other institutions to adopt effective practices and innovate in ways that benefit student learning and development.

This inauguration also marks the success of the past 4 model schools built earlier this year and illustrates there success. Birgunj Friends Round Table 8 has been committed to fulfilling and lightening the children's future.

ODYSSEY

The "Odyssey" event organized by Round Table Nepal was a notable gathering that featured a variety of activities and networking opportunities aimed at fostering camaraderie and collaboration among members. The event included programs designed to promote personal growth and allow attendees to share their common interests. It provided a platform for members to exchange experiences, and celebrate their achievements.

Inspired by members' desire for shared experiences, "Odyssey" focused on nature-centric activities to promote adventure and bonding. Participants faced challenges that required mutual support, building trust and solidarity. This event not only provided enjoyable activities but also reinforced the values of trust and cooperation within the group.

This gathering was designed to provide a strengthening bonds through shared experiences.

RTN Talks

Round Table Nepal successfully hosted its inaugural RTN Talks event, themed "Opportunity in Adversity." The event featured distinguished guests Mr. Kamlesh Kr. Agrawal (President, NCC), Mr. Rajesh Kr. Agrawal (President, CNI), and Mr. Sunil KC (President, NBA & CEO, NMB Bank), with OT Gaurav Sharda (Moderator and Chairperson, YBEF) serving as the moderator at Hyatt Regency, Kathmandu.

The event saw active participation from members of Round Table Nepal, including Old Tablers, as well as members from LCN. Additionally, it garnered significant online engagement, with over 2400 views on Facebook Live. We extend our heartfelt gratitude to the organizing teams from KRT 1 and KMRT 4, along with everyone who contributed to the success of the event.

Amid Nepal's economic turmoil, the event aimed to provide a comprehensive understanding of the challenges the country faces and to explore potential opportunities that could arise in such difficult circumstances. To achieve this, prominent market leaders were invited to participate in the talk show and share their valuable insights. During the discussion, these leaders elaborated on their plans of action, strategies, and personal experiences. They highlighted how they had successfully navigated and overcome significant obstacles in their business and professional careers in the past, demonstrating a blend of confidence and optimism. By learning from their experiences, attendees could connect their knowledge and inspiration to face the current economic challenges with renewed hope and determination.

LOTTO

To promote international fellowship and camaraderie, Round Table Nepal has partnered with various RT international associations for exchange programs during their respective country AGMs.

This collaboration has provided our tablers with opportunities to travel internationally to the AGMs in Germany, Austria, and France. Tr. Nitesh Kumar Agrawal and Tr. Jayant Agrawal attended the RT Germany AGM, Tr. Sumit Mittal participated in the RT Austria AGM, and Tr. Pankaj Jhunjhunwala attended the RT France AGM.

In recent years, a new dimension has emerged wherein sports serve as a platform for fellowship, giving rise to the concept of "ZEST." Tablers engage in sports activities year-round to promote a healthy lifestyle and camaraderie. ZEST not only fosters fellowship but also fosters teamwork, leadership skills, stress management, and provides a valuable respite from the routines of daily life, allowing members to come together and enjoy shared experiences.

LAPD

Twinklers of KRT 1

KRT1 hosted the Twinklers Got Talent LAPD session on April 27, 2024, featuring 20 young participants. This unique event provided a platform for young talents to showcase their skills, including dancing, singing, acting, and more. Twinklers Got Talent was well-received by all KRT1 members, who enjoyed watching the diverse performances. Events like these help to uncover and nurture children's talents, supporting their growth and development for the future.

NExT/TeXT

Indeed, Roundtable Nepal organizes NExT/TeXT and NLC, albeit with limitations on the number of attendees. The primary objective of it in RTN is to nurture leadership skills among its members. The workshop primarily comprised hands-on activities aimed at imparting soft skills related to communication and public speaking.

This quarter NExT/TeXT in Aloft, Kathmandu and ALC was conducted in Area 1.
